JUCO

Sportswear made For *EVERY* body, *EVERY* sport, *EVERY* day.

Juco is our sportswear brand that we believe will encourage every body to get moving with confidence.

As you know, David Luke has a long history in supplying school sportswear that is durable and available season after season. Juco offers a contemporary update in the school sportswear market with a design-led look that can also be worn as activewear. We think that the level of design detail and high-quality, durable materials within the range elevate the finish and go beyond what is expected of school sportswear.

Something that we've worked really hard on is developing the styling, fabric and construction of the range to encourage inclusiveness over elitism. This is what we mean when we say we want to get every body moving with confidence. 50% of the range is made using fabric manufactured from recycled plastic bottles, with targets being set already to expand this out to the full range, supporting the strong environmental credentials of David Luke.

A photograph of three young children in school uniforms, looking upwards. The child in the foreground is a boy with light brown hair, wearing a dark blue polo shirt with light blue accents on the shoulders and sleeves. The shirt features a circular logo with a laurel wreath and an open book. Behind him are two other children, also in similar uniforms. The background is a blurred green field.
