GRASS & AIR

About Us & Awards

Grass & Air is a multi-award winning British brand of children's wellingtons, footwear outerwear, swimwear & accessories. Loved by kids for their weather-responsive technology, this young brand has consistently innovated across its kids footwear, clothing and rainwear collection since launching in November 2017.

Taking inspiration from the city streets, Grass & Air communicates a new mood of family living in a fresh, relevant tone of voice, speaking the language of urban explorers and experience-hungry pleasure seekers.

Colour palettes take their lead from seasonal trends; from chalky pastels to Pantone heroes. Each collection evokes a feeling or an emotion that connects to contemporary outdoor living.

Through Grass & Air the humble wellington is reborn with colour-revealing designs that change in water. These high quality, functional boots innovate through thoughtful design details including fleece-lining, tech-inspired finishes and each pair comes with a complimentary drawstring bag for mess-free transportation.

Awards we're proud of...

“It’s been an incredible journey for Grass & Air so far. We have big ambitions for our sustainability journey. Think wonky wellies, take-back schemes, a strong commitment to the Ethical Trading Initiative that impacts our supply chain, and an overhaul of our raw materials to ensure our products are as recyclable as possible.”
