GARDEN TIPS

The "Buzz" about Native Plants

By Carol Schroding,
Gardening Enthusiast and former owner
of Northeast Native Perennials

Three Feature Plants For Your Garden

In our wildlife habitat series, we referenced several prime "keystone" plants (plants that host the largest percentage of insects) for your garden! Now we will feature more very important keystone plants you may want to consider.

Sugar Maple (*Acer saccharum*) can host 238 different species of moths and butterflies. It is native to Eastern North America. Reaching 40-80 ft. in height and 30-60 ft. in width, with beautiful fall color, they are long-lived trees and relatively slow growing. Native Americans taught the early colonists how to tap the sugar maple to make syrup. It is easily grown in medium moisture, well-drained soil in full sun to part shade. It is intolerant of road salt and compacted soil.

Northern Highbush Blueberry (*Vaccinium corymbosum*) typically grows 6-12 ft. tall and wide. 217 species of butterfly and moth caterpillars can use Highbush Blueberry as host plants. 14 pollen specialist bees rely on the Highbush Blueberry for pollen. It flowers in spring with white to pale pink urn shaped flowers, and blue-black berries in summer that are sweet and highly attractive to birds, mammals and humans! The leaves are dark green in summer and turn beautiful shades of orange, red or purple in fall. It thrives in sun to part-shade in moisture-retentive acidic soil with an optimum ph of 5.

Blue Wood Aster or Heart-leaved Aster (*Symphyotrichum cordifolium*) can host 100 different species of moths and butterflies as well as supporting 33 different pollen specialist bee species. It has heart-shaped lower leaves and small pale to medium blue daisy-like flowers in late summer through October,

providing important late season nectar. It prefers partial shade to full sun and moderately fertile, well-drained soil and will tolerate some dryness. Blue Wood Aster self-seeds readily so dead-heading could be helpful if you do not want "volunteers."

THUMBS DOWN

To the driver in the Penske truck who plowed over my mailbox and didn't even stop, leave a note or pick up my mail that you scattered all over the road. You could have driven two minutes in either direction and found a large parking lot or a circle where you could have easily turned around. You are a terrible driver and a mean person for wrecklessly destroying my property.

PET OF THE WEEK

RAFFA

Meet Raffa!

Meet Raffa, a handsome 3.5-year-old grey and white tabby who's ready to find a family of his very own. Raffa is a sweet, gentle boy with a loving personality that shines once he feels comfortable. He enjoys the simple things in life, soft places to nap, quiet companionship, and the occasional play session. Whether he's lounging nearby or keeping you company throughout the day, Raffa is happiest just being part of a home.

Our cat adoption fee is \$75 (not including tax). If you are interested in adopting any of our animals, please fill out an application on our website: lastchanceranch.org. PA Kennel License #4518

Last Chance Ranch® (LCR) provides a safe refuge for abused, unwanted or neglected animals. Last Chance Ranch® (LCR) is a non-profit 501(c)(3) organization dedicated to rescuing and rehabilitating equines, farm animals, and domestic companion animals. LCR also offers follow-up programs for adopters, educational seminars, and clinics. Learn more at lastchanceranch.org.

Love Kittens, But Can't Adopt?

STRAY CAT BLUES Foster Care Program may be a great volunteer opportunity for you. Cat & kitten rescuers tend to be very busy, especially this time of year. You can help by being a foster home -- either for tiny abandoned kittens who need bottle-feeding or older kittens who just need snuggles and playtime. All you need is a kind heart and a desire to help cats and kittens who would otherwise be homeless if not for you. Visit straycatblues.org/foster-application or call 215-631-1851 to learn about the Stray Cat Blues Foster Care Program.

YARDLEY

ANTIQUES

\$25 Gift Card Contest!

If you enjoy "antiquing" then you will definitely want to participate in this week's contest. This week's winner will receive a \$25 gift card to **Yardley Antiques at 335 Main Street in Pennsburg**. Yardley Antiques buys and sells retro, vintage and antique "stuff," including furniture, lamps, clocks, collectibles (glassware, porcelain, metalware and wooden things), vintage estate jewelry and more! But before you start thinking about your shopping spree, we've hidden 10 kites throughout our ads this week. Why kites? Well of course because on June 10th in 1752, Benjamin Franklin went outside into the stormy weather and performed his famous kite experiment demonstrating the connection between lightning and electricity. Be sure to stay grounded as you breeze through our ads. Don't let these kites soar into the clouds before you capture them and write down the names of the Penny Power advertisers where these kites are floating. Your correct entry will be entered into a drawing for the \$25 gift card to Yardley Antiques. Hope you get a nice breeze to keep you searching, and Good Luck!

THUMBS DOWN
To billboards along the road, especially the brightly lit ones designed to grab your attention. One of the first rules of driving is pay attention to the road and don't get distracted. I bet when a company buys one of those flashy billboards, part of the agreement is that they are only for passengers to view because it would be against good driving sense to deliberately distract the person operating the vehicle.

THUMBS DOWN

Thank you to the tractor trailer who took a shortcut by driving down my road - on which tractor trailers are prohibited. You knocked down wires and left hundreds of us without electricity for several hours. Not to mention all the workers who had to clean up the mess you made, the wires you downed, and all the drivers who could not use the road to get to work that morning. But you may have saved 2 minutes of your time by taking the shortcut so I guess that's all that matters. I just hope someone's camera captured your license plate so you get the citation you deserve.

MONARCH BUTTERFLIES NEED MILKWEED!

We encourage you to plant milkweed that is native to your area. Native species perfectly match local soil, climate, and pollinator needs.

Learn more at: xerces.org

Our name (which is pronounced Zer-sees) comes from the now-extinct Xerces blue butterfly (Glaucopsyche xerces), the first butterfly known to go extinct in North America as a result of human activities. The Xerces blue's habitat was destroyed by development in the sand dunes of San Francisco, and the species was declared extinct by the 1940s.

In Memory Of My Beautiful Sister Forever in My Heart

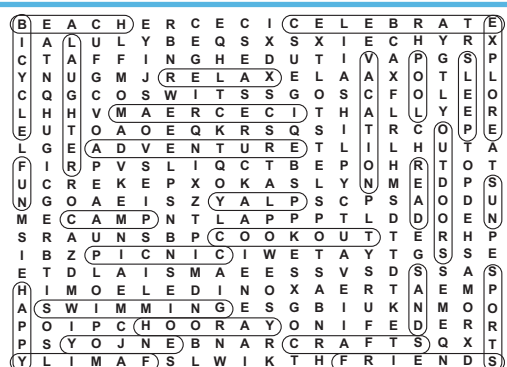

*I thought of you today,
But that is nothing new;
I thought of you yesterday too.
I think of you in silence and cry;
I miss you.
For what it meant to lose you,
Only those who love you know;
Remembering you is easy,
I do it every day.
It's the heartache of losing you
That will never go away.
My good, sweet and loving sister,
God Bless and keep you safe and happy.*

*Love Always,
Miss You,
Sayle*
