Find the best Medicare option for your life.

Educating yourself today can benefit you greatly in the future.

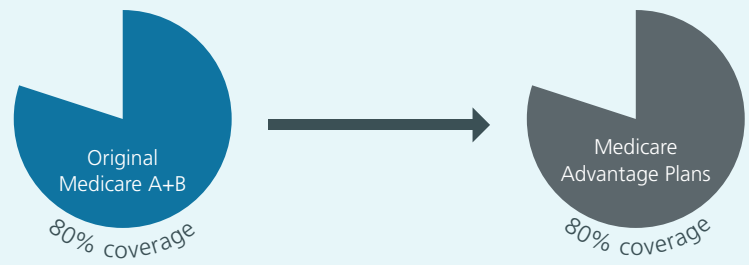

- Medicare enrollees begin with Medicare Parts A and B; Also known as Original Medicare or Traditional Medicare.
- On its own, Original Medicare covers approximately 80% of a beneficiary's medical services costs for Medicare-approved services. There is no out-of-pocket maximum on the remaining 20%.
- Many enrollees are uncomfortable with this risk and choose to take an additional step beyond carrying Original Medicare.

There are two main options* to choose from:

OPTION 1 – MEDICARE SUPPLEMENT INSURANCE
(also known as Medigap) is a supplement to Original Medicare that fills the gaps not covered by Original Medicare.

OPTION 2 – MEDICARE ADVANTAGE
(also known as Medicare Part C) is private insurance that replaces Original Medicare.

**With either option, you are still required to pay the Part B premium ($202.90/month in 2026).*

GARDEN TIPS

The "Buzz" about Native Plants

By Carol Schroding,
Gardening Enthusiast and former owner of Northeast Native Perennials

Ferns: Indispensible to the Shade Garden

I was introduced to ferns as a child at our family cabin in the Pocono Mountains where **Eastern Hayscented Ferns** (*Dennstaedtia punctilobula*) were everywhere. They were the only ferns I really knew until we moved to our property outside of Quakertown, where we were fortunate to have **Christmas Ferns** (*Polystichum acrosticoides*), **Hayscented Ferns** (*Dennstaedtia punctilobula*), **Sensitive Ferns** (*Onoclea sensibilis*) and **Lady Ferns** (*Athyrium filix-femina*) naturally occurring in the landscape.

Over the years I have added to them with some of my favorites including **Northern Maidenhair Fern** (*Adiantum pedatum*), **Cinnamon Fern** (*Osmunda cinnamomea*), **Ostrich Fern** (*Matteuccia stuthiopteris*), **Netted Chain Fern** (*Woodwardia areolata*) and **Log Fern** (*Dryopteris celsa*).

Most of our native ferns are low maintenance and appreciate part to full shade although some are more sun tolerant as long as they have consistent soil moisture. They are generally all deer and rabbit resistant, which makes them a very desirable addition to my shade garden! Some, like the Christmas Fern and Log Fern, are even evergreen or semi-evergreen depending on the severity of our winter.

Northern Maidenhair Fern (*Adiantum pedatum*) has a most unique and delicate form. Its fronds form a beautiful whorl-like pattern above a black wiry stem.

It is one of the ferns that prefers mostly shade and consistently moist soil high in organic matter. It spreads slowly to form an amazingly beautiful colony.

Christmas Fern (*Polystichum acrosticoides*) was one of my first favorites when I moved to this woodland area and became aware of them. It fascinated me that they were sometimes evergreen and looked beautiful against the large granite rocks sprinkled around our property. Christmas Fern is clumping and will increase in size over time. If they like their area, they will spread gently. They reach only about 2 ft. high and enjoy dry to medium moisture soil. Unlike a lot of moisture-loving ferns, it is drought tolerant. Named Christmas because it was still green at Christmastime, or perhaps because of the stocking shaped pinnae. The dark green leathery leaves will add wonderful texture and form to your shade garden!

Next week: More beautiful Native Ferns for your garden!

PET OF THE WEEK

Meet Silver!

Silver is a big-hearted sweetheart who has one request: belly rubs, please! She'll happily flop onto her back for attention and nuzzle right into her people for more love. She has a fun, energetic side too and loves running around with her handler, playing with toys, and generally having a great time. Silver is affectionate, social, and warms up quickly to new people. If you're looking for a happy girl who can go from belly rubs to zoomies in no time, Silver is your girl!

Silver's adoption fee is $350 (not including tax), which means she is spayed, up to date on core vaccines, microchipped, kept on monthly preventions, and dewormed. If you are interested in adopting any of our animals, please fill out an application on our website: lastchanceranch.org.
PA Kennel License #4518

HELLERTOWN HISTORICAL SOCIETY TALKS IN THE TAVERN

Thank you to the Hellertown Historical Society for hosting an informative and fun evening for all, about colonial currency in their beautiful and historic Heller-Wagner Grist Mill Tavern. Penny Power's very own John Ambrose (orange shirt) presented stories and examples with the assistance of friends and currency experts Bill Liatys (right), Mike Brooks (second from right) and Gary Elmer (left). As we celebrate America's 250th, this event was a great way to step back to 1776 and learn about some very practical struggles that went into forming this new nation. The Hellertown Historical Society welcomes new members and volunteers. Learn more at HellertownHistoricalSociety.org.

THUMBS UP

On October 14, as I sat through the third light cycle at the intersection of 313/663 and 309, a beautiful monarch butterfly came fluttering down the highway, very near to my car, then flew behind my car toward the rest of the lined-up vehicles that were undoubtedly waiting impatiently to speed through the next light cycle. I'm giving a thumbs up to that poor butterfly for having the tenacity to try to get to her summer home even though the temperatures are dropping and it's already mid-October. The part I saw was two seconds of what must be an incredibly arduous and treacherous journey. And where are the flowers that are supposed to fuel her journey? It seems to me it's a miracle that we have any monarch butterflies at all when you think about their delicate nature and all the human-made hazards we've put in their path, not to mention the food desserts we've created with all our pesticides.
