GRAND LAKE

*A fun, family destination
for more than 100 years!*

Families have long enjoyed vacationing at beautiful Grand Lake. Ohio's largest inland lake has been a destination for camping, boating, swimming, fishing and picnicking for many generations.

Appreciate the History

Constructed by man, without power equipment, Grand Lake served as a feeder lake for the Miami-Erie Canal. At its completion in 1845, it was the largest man-made lake in the world and is still the largest hand dug lake. Workers received 30 cents a day and a jigger of whiskey for their labors. In the early 1890's the lake became the site of the first off-shore oil drilling platform. By 1915 there were more than 150 oil wells in the lake. Other past business ventures on the lake included ice harvesting and commercial fisheries. It was also the location of a large amusement park, dance halls and church camps.

Enjoy the Great Outdoors

Today Grand Lake St. Marys State Park consists of nearly 600 acres of prime lakeside parkland. You will find trails and walkways, great access to fishing, swimming beaches, picnic amenities, excellent bird watching, public boat launch areas and a large, well maintained, state campground.

You'll also find: Year round fishing, with many tournaments held on the lake each year • Sport fishing species include bass, crappie, perch, bluegill, catfish & walleye • Six pair of nesting American bald eagles • Miles of hiking & biking trails along the lake and adjacent wetland preserves • Excellent goose and duck hunting • A state fish hatchery • Snowmobiling • Waterfowl refuge and wetlands nature observation decks and trails • Handicap access fishing piers, boat docks and kayak launch ramp • Kayaking clubs • Ice Fishing • Four bait & tackle shops around the lake • Great for Bird Watching - with a wide variety of waterfowl and migratory birds.

When visiting Grand Lake, Don't Miss:

The 3 lighthouses on the lake • The many lakeside festivals, concerts, races and other fun events • The great local cuisine and lakeside dining available at a number of restaurants.

Stay a While

From primitive campsites to lakeside, Jacuzzi hotel suites to homey cottages, you will find a wide variety of lodging options for your visit including two hotels with lake views, two hotels with docks available for guests, over 1,600 camp sites along the lake and many cottages, cabins and overnight facilities.

LIGHTHOUSES

You will be in awe...

as you view these stunning lighthouses on Grand Lake. Although it is an oddity for an inland lake to possess a lighthouse, Grand Lake is proud to boast of three such structures.

Northwood Lighthouse

This 1923 Eddystone Lighthouse is a monument to the original English Channel Beacon. In the early days it operated under a government license from April to November. Located on the north shore between Celina and St. Marys. Viewing from lake only (National Registry of Historic Places).

Rotary Lighthouse

US Route 127 and Lake Shore Dr | Celina, OH

This forty foot working lighthouse welcomes visitors to Celina each evening. Built in 1986 by the Celina Rotary Club, this structure has a wrought iron observation deck encircling it for those who wish a "grander" view of the lake.

Behm's Lighthouse

This beautiful stately structure was dedicated on April 19, 2003 in memory of Stanley Mike Grimm. The operating marine light can be seen up to seven miles. It can be viewed on the south shore of the lake at 5444 Behm Rd. at Behm's Landing.

FORT RECOVERY MUSEUM

1 Fortsite St | Fort Recovery, OH 45846
800.238.8920 | www.fortrecoverymuseum.com

Fort Recovery is the site of two remarkable battles in American history; the 1791 victory of nine American tribes (Miami, Shawnee, Delaware, Ottawa, Wyandotte, Ojibwe, Seneca, Cherokee, and Potawatomi), led by Mihšihkinaahkwa (Little Turtle, Miami), Weyapiersenwah (Blue Jacket, Shawnee), and Buckhongelas (Delaware) over General Arthur St. Clair's forces; and the 1794 victory of General Anthony Wayne's army over a larger alliance of American Indian tribes. The events at this battlefield were pivotal in the relationships between the Native people defending their homelands and invading American soldiers and settlers. The battles at this site set the stage for the 1795 Treaty of Greenville, after which American Indians relinquished most of their land holdings in Ohio. They also set the course for the determination of land ownership in contemporary Ohio and the 1830 Indian Removal Act, forcibly removing American Indians from their homelands in Ohio.

*Learn more about the battles
using this QR code.*

Visitors to present day Fort Recovery see history come alive through the reconstructed fort with the two-story blockhouses and connecting stockade, along with two log cabins with exhibits of early colonial furnishings and tools. The adjacent Ohio History Connection museum houses accurately detailed figures of Wayne's army and an American Indian soldier, American Indian history, models, and both historic and pre-contact artifacts. Monument Park features an obelisk that stands over 100 feet high in honor of the soldiers who died in both battles, and whose remains, and those of camp followers, are buried under that monument. Make time to visit the historic murals that grace the downtown area, and the 15 interpretive signs that form a 1.5-mile walking tour throughout the village and battlefield.

Open Sat & Sun in May, September, and October; and Wed thru Sun in June, July and August. Hours 11:00-4:00. Admission \$5.00 adults, \$3.00 ages 5-12. Personal/group tours available year-round with \$20 tour charge in addition to regular admission fee.

FORT RECOVERY STATE MUSEUM

Fort

This partial reconstruction of the Fort of Recovery features two 20 ft. x 20 ft. two-story blockhouses with connecting stockades. Inside the fort area is located the corner marker of the Greenville Treaty Line, which was established by the 1795 Greenville Treaty. 15 Wayside exhibits on the battlefield have been added.

Monument Park

In 1908, President William Howard Taft signed a bill for the construction of the Fort Recovery Monument to recognize the significance of the military events that occurred there, and to give a final resting place to all soldiers who died in the battles. The obelisk memorial and burial crypt underneath were built in 1912 and dedicated on July 1, 1913.

Museum

On floors one and two, with completely new exhibits, Fort Recovery State Museum houses one of the finest military museums in the country. On the third floor is one of the nicer prehistoric artifact collections on display in Ohio.

Franke Walkway

This bucolic walkway links Fort Site Park to the Fort Recovery State Museum. Signs lining the walk detail the early history of the village as well as the two greatest Indian battles ever to take place in the United States, battles that occurred on this very ground.

MIAMI-ERIE CANAL

Step Back in Time along the Miami and Erie Canal

The Miami and Erie Canal played an important role in the development of Ohio as settlers found easier transportation into the wilderness and commerce found a cheaper route to markets. The 20 year, 8 million dollar, construction project began in 1825. Irish, French and German immigrants manually removed trees, rocks and soil to create the 256-mile waterway from Cincinnati to Toledo. Laboring from sun-up to sunset, they were paid 30 cents a day and a jigger of whisky. Canal use was at its peak in 1851 with over 400 boats moving freight and passengers. As railroad use increased, use of the canal diminished. The final blow was the Great Flood of 1913 which destroyed portions of the canal.

Now used for recreation, the Miami and Erie Canal Towpath Trail connects communities with an enhanced hiking and biking trail. It is also part of the Buckeye Trail and North Country National Scenic Trail. To learn more about the canal, stop by the Miami and Erie Canal Visitors Center at Lock One in New Bremen. Check out the numerous exhibits and displays as well as the lock which has been restored to its 1910 appearance. Along the canal, north of Lock One, is the Kuenning-Dicke Natural Area. With 71 acres it includes woodlands, a prairie area, a pond and 2.5 miles of trails. It provides a great spot for primitive camping, picnicking and enjoying nature.

Continuing north to St. Marys, Memorial Park is home to the Belle of St. Marys, a replica canal boat. Continuing on, you will pass Lock 13 and can view the Tumbles as you walk through Mill Park and connect with the trailhead that continues the walking path. It will take you to the 40 Acre Pond, Lock 14, the Bloody Bridge and Deep Cut. Along the route you will find the Six-mile Creek aqueduct. Restored in 2019, this original stone aqueduct with twin arch spillways was built to carry the canal over the creek. While in the St. Marys area, also check out Grand Lake St. Marys, Ohio's largest inland lake. This 13,500 acre manmade body of water was originally created to serve as a source of water for the canal.

OHIO SCENIC BYWAYS

Ohio Byways are gateways to cultural, historic, natural, scenic and recreational areas across the state. Each route has a unique story. There are 27 Scenic Byways in Ohio, you will find three of them located in the Grand Lake Region.

The Miami and Erie Canal Byway

This 54-mile byway follows the original route of the Miami and Erie Canal, an important 19th century transportation route, from Lake Erie to the Ohio River. This byway follows State Route 66 and the canal corridor from Johnston Farm at Piqua, northward through Minster, New Bremen and St. Marys, ending in Delphos, a distance of 54 miles.

The Neil Armstrong Scenic Byway

This byway celebrates the early years of Neil Armstrong's life. In 1969, he became the first human to walk on the moon. His early interest in flying was cultivated in his hometown of Wapakoneta. Armstrong was so determined to fly that he earned his pilot's license before his driver's license. This byway traces a likely route for his bicycle journey to the airfield. The byway route through downtown Wapakoneta retraces the route of his homecoming parade after returning from the moon. Some of the storefronts have changed, but much of the architecture appears, largely, as it did during his boyhood..

Land of the Cross-Tipped Churches Byway

View map and full details on this 39-mile byway on the following page.

St. Marys, Ohio • 419-394-3303 • www.cityofstmarys.net

When you're visiting the region, stop by downtown St. Marys to walk the Miami & Erie Canal towpath trail, play a round of miniature golf, and explore a daring past. You can also enjoy the work of area artists, and you'll find old-fashioned values and service in our restaurants and stores.

You'll get a warm welcome and have a lasting experience in our town, so spend some time in St. Marys soon and see for yourself.

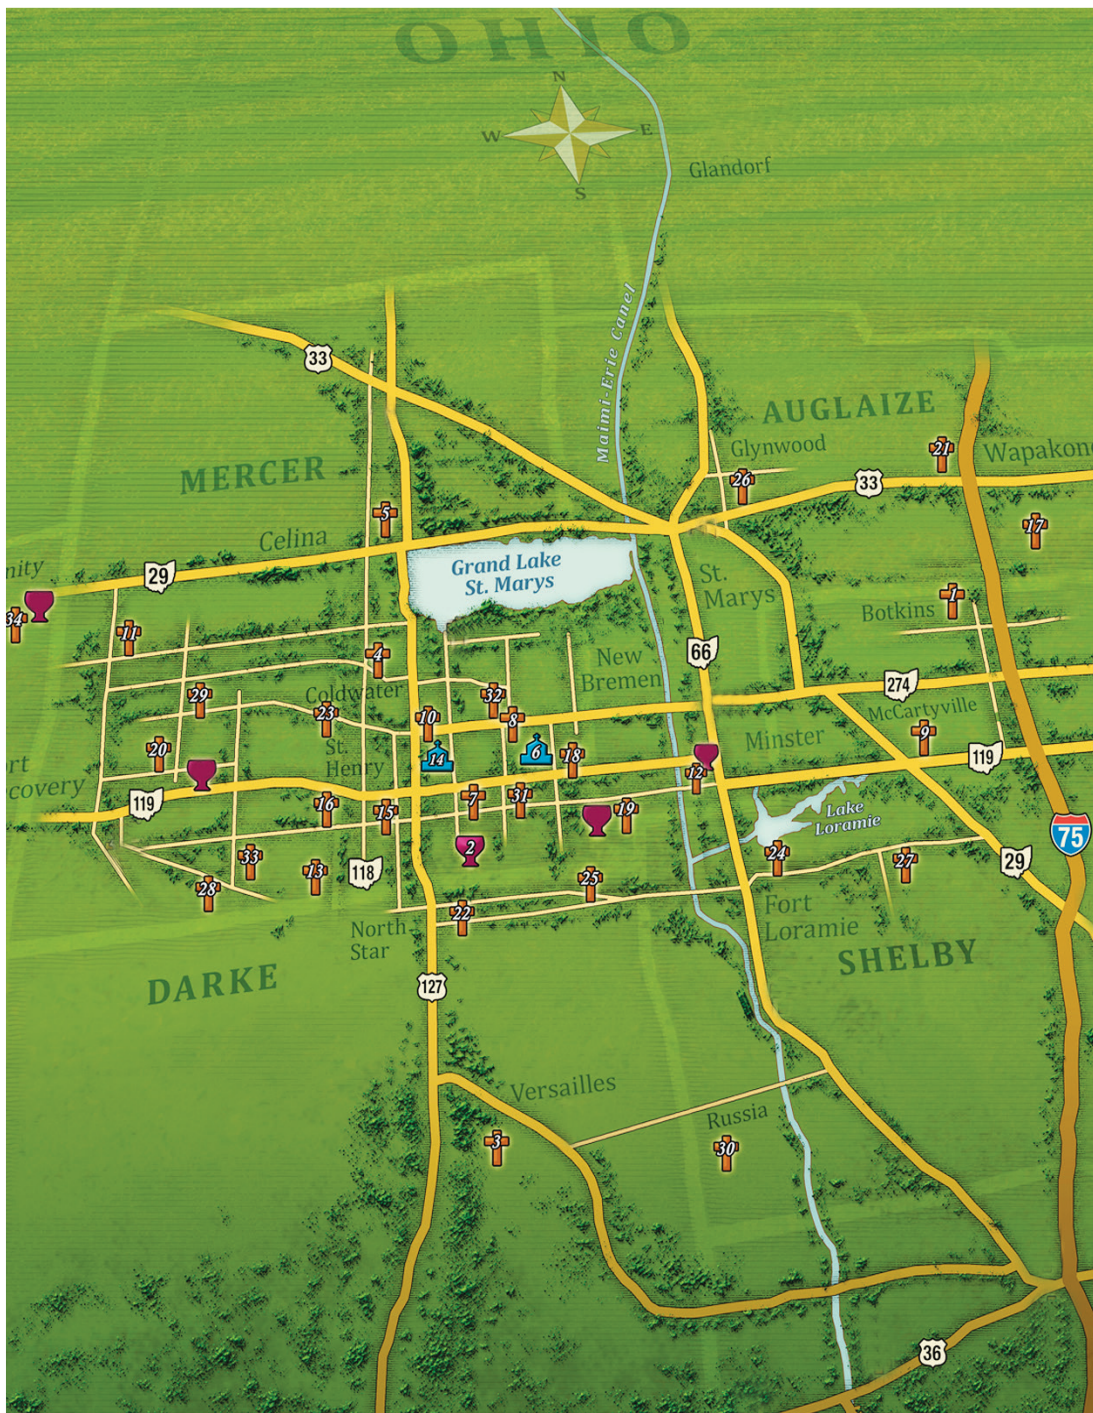

From US 33, take State Route 66 South or 29 East to St. Marys.

Don't miss the replica canal boat in Memorial Park!

THE LAND OF THE CROSS-TIPPED CHURCHES

This 39 mile scenic byway consists of more than fifty buildings representing the German Catholic settlements of southern Auglaize and Mercer Counties, as well as portions of northern Darke and Shelby Counties, which were placed on the National Register of Historic Places. Consisting of churches, schools, rectories and convents, this grouping is symbolic of the cultural and historical uniqueness of the region. Today, these structures remind us of the hard work and dedication of these early settlers as they built the Miami-Erie Canal and forged a new life on the area's rich and productive farmland. Trips through the rural countryside follow the quaint churches with their cross tipped "spires to heaven" and include stops at the focal points of the region: the former convent at Maria Stein; St. Augustine Church - the original Mother Church of the area at Minster and St. Charles Center, the magnificent and impressive former seminary at Carthage. Call 800-860-4726 for group tours or check out the story map at the Ohio Department of Transportation's website: <http://gis3.dot.state.oh.us/ScenicByways/LCC.html>
