ABOUT CHECKPOINT

Checkpoint provides you with the most innovative and technically advanced products engineered to protect your high-theft merchandise. Any theft is unacceptable. It is our goal to help you control all levels of theft and improve your bottom line one innovation at a time.

Every Checkpoint product provides:

- **Security** to ensure the highest level of protection for your high-theft merchandise.
- **Aesthetics** to enhance the merchandising of the retail products they protect.
- **Value** to increase your profits by reducing theft and helping to defend your bottom line.
- **Ease-of-use** allows for easy application and removal with less disruption to your sales process.

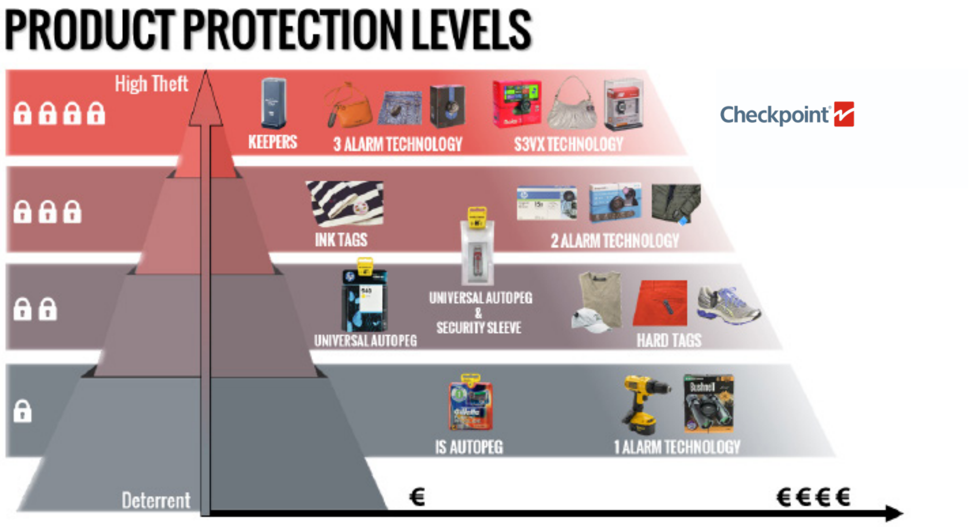
PRODUCT PROTECTION LEVELS

Alpha is well-known in the market for its high quality solutions, providing a broad range of antitheft consumables for the majority of products on the market today, helping retailers increase profits by reducing theft.



Alpha is commonly associated with its High-Theft Solutions, like the S3vx, our best-in-class 3 Alarm protection, although the portfolio includes several deterrent solutions which stand out by their smart aesthetic, fast handling and easy operation.

To provide guidance we have defined a matrix with the different Alpha Product Protection Levels depending on the product value that is to be protected.

Accross the new Alpha Catalogue, an icon will be placed next to every product as highlighted below:

LEVELS OF PROTECTION IN THIS CATALOG:

🔒	DETERRENT	Discourage the theft through instilling doubt or fear of the consequences
🔒	PREVENTION	The product activates EAS alarm if a breach occurs
	HIGH THEFT	Most aggressive theft protection designed to help to defend the bottom line
RFID AVAILABLE	RFID	Radio-frequency identification (RFID) uses electromagnetic fields to automatically identify and track tags attached to objects. The tags contain electronically-stored information

COULD YOU BE SELLING MORE?

CUSTOMISATION HAS BECOME DESIRABLE FOR RETAILERS AND E-RETAILERS OVER THE PAST FEW YEARS

Customisation has become a hot topic in the retail industry. As retailers keep adapting their display methods to attract shoppers, customised products give the opportunity to extend a strong, dynamic brand identity.
When it comes to EAS Solutions, customisation options are plentiful.

Alpha wants to work with retailers in order to exceed their expectations with their loss prevention solutions, for example, incorporating brand colours or adding logos or text.
We are already working with Key Accounts across Europe to achieve exactly this.
Please ask product management for further details and examples.

Customised blue Autopeg

WHAT YOU NEED TO KNOW:

- Alpha High Theft Solutions would like to increase customer satisfaction by offering the possibility to customise its products.
- Customisations can be made from simply adding a logo, up to the more complex changing of manufacturing materials in order to achieve a specific coloured product for the retailer.
- All enquiries will be considered individually and the full scope of possibilities discussed with the account manager.

For any further questions or requests regarding the product customisation and MOQ, please, contact your local product management.

1 Alarm Versa Guard™

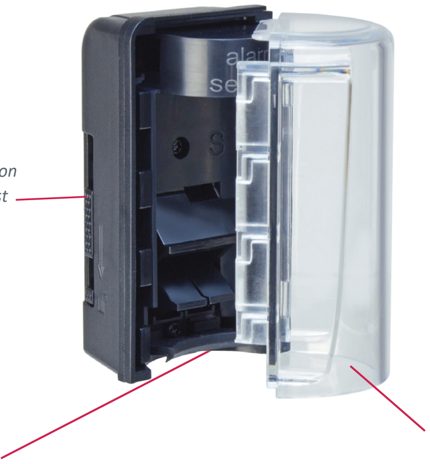
Checkpoint's Versa Guard provides excellent versatility, optimal merchandising and benefit denial security. With both small and large options, the attractive Versa Guard will fit most of the spirit bottles on the market. Ease of application and removal makes in-store operations quick and intuitive.



Hinge-style allows the cap to open from the side broadening bottle fit

Locking slide makes application and removal fast and efficient

Rubber guard helps prevent tampering and defeat

Clear front provides a clean product display

KEY FEATURES:

- Ease of use and strong security ensure the cap delivers an impressive ROI
- Small and large size options will protect most bottles in the spirit market
- 1 Alarm
- Improved design withstands defeat
- Specifically designed to make application and removal fast and easy — can be done with one hand
- Vast increase in efficiency when handling multiple bottles at one time

SUGGESTED APPLICATIONS:

Spirits

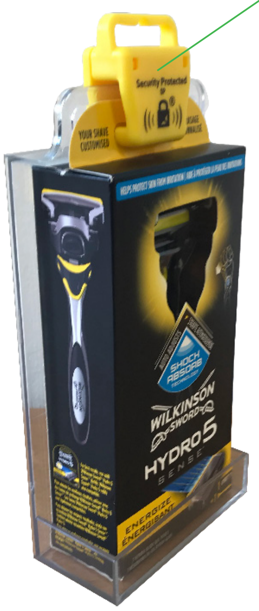
Checkpoint
Alpha High-Theft Solutions

# ECO

Autopeg™ Eco Keeper®

Instruction video

The Autopeg Eco Keeper is the first one of a new keeper range which provide a more sustainable option thanks to the reduction of the quantity of PET. Combined with Universal Autopeg, it is a 2 in 1 product which offers different levels of protection. Specially designed for razors but it could also protect any other product fitting the same size.



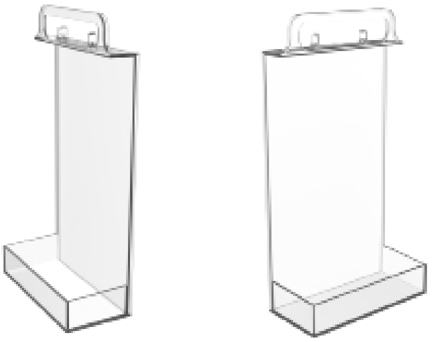
Universal Autopeg (can be customized)

Drastic reduction of plastic. Made out of reusable and widely recyclable PET.

PET

KEY FEATURES:

- Safe, effective and shock resistant
- More sustainable, less plastic (24% reduction vs current Razor Keepers from Checkpoint)
- 360º Solution
- The new Autopeg Eco Keeper offers extra level of protection combined with Autopeg
- Easy to fit and remove by store associates
- Encloses package openings for benefit denial
- Ideal for stores with different levels of theft



Strong visual deterrent

SUGGESTED APPLICATIONS:

Suitable for Hanger Top packaging having 20.88 cmH x 10.64 cmW x 4.83 cmD dimensions and commonly associated with razor packaging

SUGGESTED DETACHERS BY LOCKING MECHANISM (For AutoPeg):

Standard Lock (9414839, 10111227, 9238054). More info in keys section of the catalogue.

Super Lock (10144026, 10144027, 10104110, 10106181). More info in keys section of the catalogue.

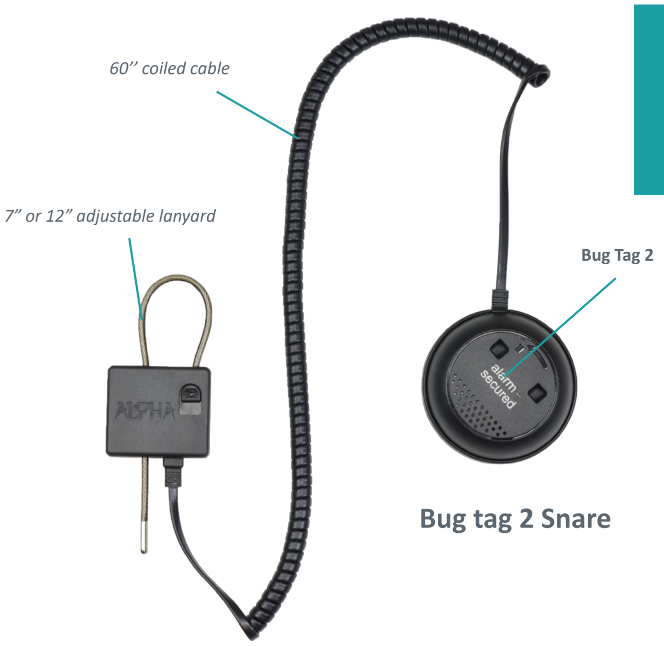
Bug Tag 2 snare + sensor

The versatile Bug Tag 2 offers a wide range of product protection applications. The alarming tag provides both security and flexibility by combining a reusable module and disposable sled.

KEY FEATURES:

- 95 dBA alarm
- Flashing LED light
- Improved sound chamber
- Compact design
- Quick and easy to apply and remove
- Reusable module
- Disposable adhesive sled
- Snare accessory for securing display merchandise



Bug tag 2 Snare

SUGGESTED APPLICATIONS:

Tablets

Sell-through packaged merchandise

Display merchandise

3 ALARM TECHNOLOGY:

EAS Protection: Activates EAS alarm if a breach occurs

Early Detection: Alarms when merchandise is tampered with in store

Extended Range: Self alarms if merchandise is removed from store

SUGGESTED DETACHERS BY LOCKING MECHANISM:

S3 Lock: S3 Handkeys (10006401, 10006402, 10006398, 10006399, 10006347, 9286317, 10006400, 9409394). More info in keys section of the catalogue.

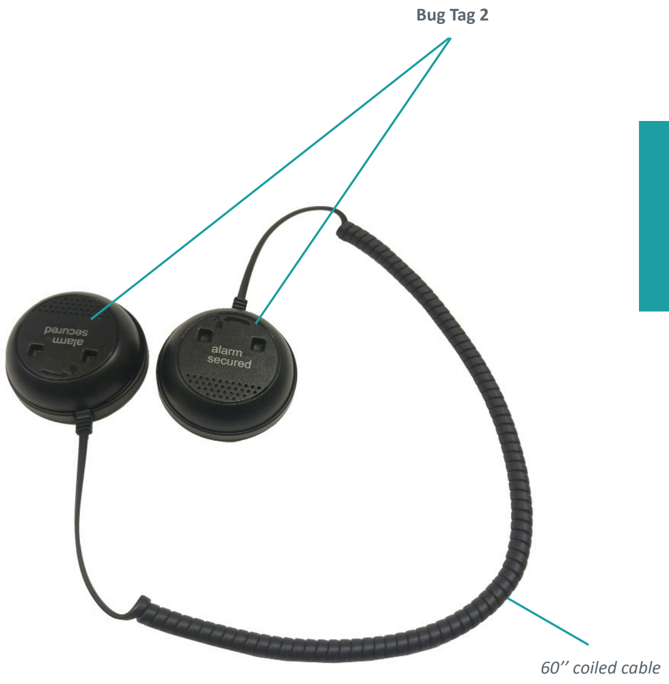
Bug Tag 2 Snare 7'' Dual Sensor

Instruction video

The new Bug Tag 2 Snare 7'' Dual Sensor provides versatility on open display product protection applications. The alarming tag offers both security and flexibility by combining a reusable module and removable or fix sled together with the coiled cable. The Bug Tag 2 offers a dual sensor for maximum product protection.



Bug tag 2 Snare 7'' Dual Sensor

KEY FEATURES:

- 95 dBA alarm
- Flashing LED light
- Improved sound chamber
- Double snare
- Compact design
- Quick and easy to apply and remove
- Reusable module available in 2 or 3 Alarm
- Removable or fix adhesive sled
- Snare accessory for securing display merchandise

SUGGESTED APPLICATIONS:

High cost electronics products

Tablets

See-through packaged merchandise

Display merchandise

3 ALARM TECHNOLOGY:

EAS Protection: Activates EAS alarm if a breach occurs

Early Detection: Alarms when merchandise is tampered with in store

Extended Range: Self alarms if merchandise is removed from store

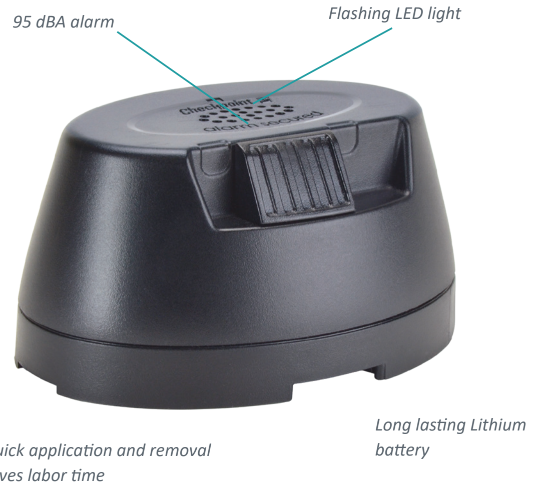
2 & 3 Alarm StrapLok

Instruction video



95 dBA alarm
Flashing LED light
Quick application and removal saves labor time
Long lasting Lithium battery

Checkpoint's innovative StrapLok quickly attaches onto existing box nylon straps. Thanks to the **dynamic** tension adjustment, it is compatible with low-quality, loose straps found on boxes already pre-strapped from manufacturing. StrapLok actively monitors the tension of the strap and will only alarm if the strap is being cut, similar to our award-winning Spider Wrap®.

KEY FEATURES:

- AM or RF technology
- 2 or 3 Alarm®
- 95 dBA alarm
- Flashing LED light
- Isolated sound chamber
- Battery is replaceable
- S3 Lock, Standard Lock or Super Lock clutch strengths

3 ALARM TECHNOLOGY:

EAS Protection: Activates EAS alarm if a breach occurs

Early Detection: Alarms when merchandise is tampered with in store

Extended Range: Self alarms if merchandise is removed from store

SUGGESTED APPLICATIONS:

Boxed merchandise with nylon straps

SUGGESTED DETACHERS BY LOCKING MECHANISM:

3 Alarm® Thunder Tag™

Used in conjunction with a custom adhesive backing, Alpha's 3 Alarm Thunder Tag has been designed to provide retailers great flexibility with open merchandising their high-theft products.

KEY FEATURES:

- Used in tandem with custom adhesive widens the versatility of the tag
- 3 Alarm technology works with standard EAS gates as well as Alpha's NanoGate®
- Long lasting battery life
- 95 dBA alarm
- Flashing LED provides a strong visual deterrent
- Small profile, merchandises well on a wide range of products

SUGGESTED APPLICATIONS:

In-store tablet protection

Display merchandise

3 ALARM TECHNOLOGY:

EAS Protection: Activates EAS alarm if a breach occurs

Early Detection: Alarms when merchandise is tampered with in store

Extended Range: Self alarms if merchandise is removed from store

SUGGESTED DETACHERS BY LOCKING MECHANISM:

S3 Lock: S3 Handkeys (10006401, 10006402, 10006398, 10006399, 10006347, 9286317, 10006400, 9409394). More info page 79 of the catalogue.

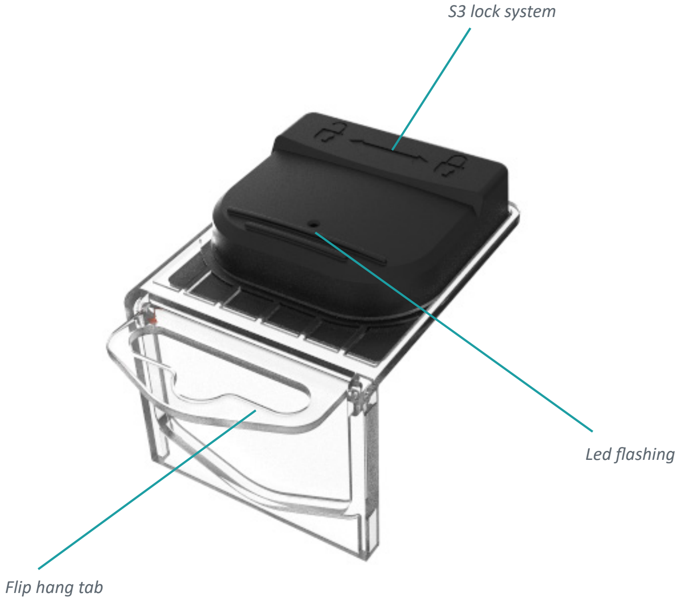
Thunder Tag™ w/ corner sled

Instruction video

The new Thunder Tag with corner sled offers a wide range of product protection applications. This high-theft solution provides the combination of a 3 alarm tag and a corner sled, preventing access to the contents of the box. The Thunder Tag with corner sled enables maximum product protection through the combination of benefit denial and Alpha's reliable 3 alarm system.



KEY FEATURES:

- Combination of alarming tag and corner sled
- 3 Alarm technology
- Extended Range: Self alarms if merchandise is removed from store and not deactivated
- Easy to apply and remove
- Preserves product branding
- Compact design
- Reusable tag with disposable adhesive sled
- S3 locking system
- Able to use on the shelf and on the hook

SUGGESTED APPLICATIONS:

Laptops

Tablets

See-through packaged merchandise

Display merchandise

Gen 3 Hard Tag

Gen 3 Hard Tags are available in a selection of performance levels (Specialty, Enhanced & ECON), all designed to protect high-risk items, including a broad range of apparel merchandise and accessories. Their superior accuracy and precision facilitate accurate alarm management—and their aesthetically pleasing rounded look prevents prying, ensuring that merchandise remains protected. Select Gen 3 Hard Tags can be applied @Source, in-store or both. All are reusable and easily removed at POS with Checkpoint Super detacher.

KEY FEATURES:

- Sleek round design; strong visual deterrence
- 1 Alarm
- Closes almost seamlessly; difficult to defeat (even with a tool)
- Improves merchandise availability
- Protects merchandise without damaging fabric
- Available for @Source and/or in-store application
- Easily removed at POS with Checkpoint Super detacher
- Custom printing options available

# *Reusable Hard Tags*

Golf Hard Tag

The Golf Hard tag is a great visual deterrent. The RF round Tag has the added security of enclosing some of the clothing inside the pin. By locking some of the cloth in the tag a shoplifter is forced to cut the entire tag out. Only available with Super Lock. Standard magnetic detachers will not work with the Golf Tag making it even more difficult for shoplifters to defeat.

KEY FEATURES:

- Tough, secure and reusable
- 1 Alarm
- Easy to apply and remove
- 8.2MHz Frequency
- Super Lock

SUGGESTED APPLICATIONS:

Apparel

Standard Lock Keepers®

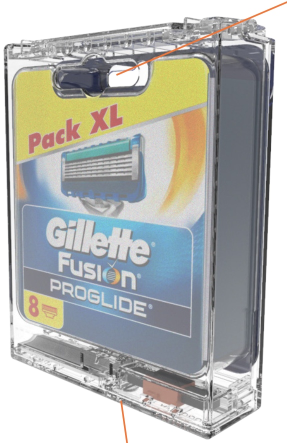
Instruction video

The Standard Lock Keepers are the new line of razor keepers with both an integrated and a flip hang tab minimizing the space on the shelf.
Its automatic opening system reduces considerably the labour costs in-store and the queues at check-out thanks to a one-hand removal.



Integrated hang tab

Standard Lock Keeper - 4/8 pack version

Auto-opening system

KEY FEATURES:

- 3 sizes for razors: Blades, 4/8 pack & 12 pack
- RF or Dual Technology (RF & AM)
- 360º product visibility
- Auto-opening locking mechanism
- Single handed application and removal
- Integrated hang tab gives extra space for product display
- Additional flip hang tab (already fitted on the keeper)
- Suitable for any display configuration: on the shelf, on the hook

and eurobox display

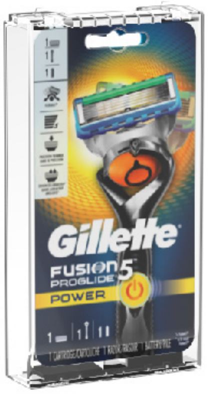
SUGGESTED APPLICATIONS:

Razors

Additional flip hang tab

Standard Lock Keeper - 4-8 pack version

Standard Lock Keeper - 12 pack version



Standard Lock Keeper - Blades version - Sara Pack

Oral B Keepers®

Alpha offers a complete range of Oral B keepers®, including clamshell keepers for 2 or 4-8 brush heads and the new Oral B Universal Keeper adapted to all Oral B blister sizes.
The main difference between the size-adjusted Keepers and the Universal Oral B one is the position where the locking mechanism is placed.
The Universal Oral B Keeper is the only one with the locking mechanism placed in the back and not in the right side and also providing an open area on the top which allows to use the own blister as a hang tab. It also has an integrated hook which makes it more versatile.
All the range is completely transparent, allowing 360º product visibility which maximises brand and packaging promotion.

Designed for maximum product availability on the shelf

Oral B Keeper

Oral B Universal Keeper

KEY FEATURES:

- Special-sized Keepers for 2 and 4-8 Oral B brush heads
- Universal size Keeper fitting all Oral B brush heads
- S3 Locking mechanism: Universal size Keeper at the back side and the special-sized Keepers on the right side
- Additional flip hang tag
- 360º product visibility
- Single handed application and removal
- Available in RF or AM
- Suitable for any display configuration: on the shelf and on the hook

Additional flip hang tag

S3 locking mechanism at the back side

SUGGESTED APPLICATIONS:

Oral B brush heads
Other suitable products by sizes: Earphones

Game Controller Keeper®

Alpha's newest Keeper size protects popular electronics with ease. By keeping retailers' planograms in mind, a slit at the top of the Keeper enables it to be hung on a peg hook utilizing the package's integrated hang tab.

KEY FEATURES:

- Magnetic spring lock only opens with Alpha's S3 Key
- AM or RF technology
- Activates EAS alarm systems if not removed at checkout
- Keeps original package intact
- Easy to use & reuse
- Hang Tab compatible

S3™ Handkeys

S3 HandKeys offer superior aesthetics, ergonomic improvements and ease of use, with the trusted level of security you have come to expect. Serial numbers provide added security. The S3 HandKeys will open the entire line of S3 products.

KEY FEATURES:

The patented S3 HandKey is available in four configurations:

- **Standard S3 HandKey** is equipped with a 60” coiled lanyard that bolts directly into the POS and provide easy access and manageability
- **S3 HandKey and Dock** comes with a convenient dock that is attached at the POS for storage when not in use
- **S3 Locking Counter Key** has the same specialized magnet array with in an ergonomic handset that fits into a locking cradle for added security
- The **S3 Locking Alarming Counter Key** has a 95 dBA alarm that will signal when the lanyard has been compromised

Super S3™ Key

Instruction video

This next generation of super detacher, based on our Multi-Detacher ergonomic aesthetic, has been designed for ease of use, providing the perfect detacher solution for any of our products. The Super S3 Key provides both form and function and is the strongest detacher in our portfolio.

KEY FEATURES:

- Ergonomically enhanced for easier handling
- Sturdier design able to better withstand rough retail environment
- Lighter than previous Super XT version due to separate magnet sets being used
- Dual-swivel lanyard to prevent tangling
- 36’’ or 60” coiled lanyard
- S3, Standard Lock and Super Lock detaching
- Can be locked in either open, when being used, or closed position to prevent un-authorized item removal
- Serial number provides added

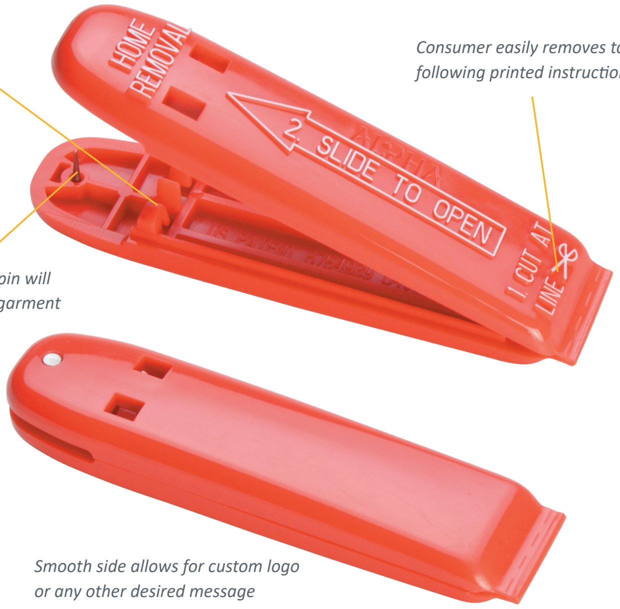
Single Use

Designed to be removed by the consumer after purchase, Checkpoint's Single Use solutions offer an economical, practical and secure approach to protecting your merchandise from theft and wardrobing.

Shark Tag®

Shark Tag is very effective in preventing customers from purchasing, using and returning merchandise for a full refund.

The right red Shark Tag attaches to the garment in a visible area — signifying that the merchandise is being secured. Shark Tags are easily removed by the customer at home.



Locking teeth

Consumer easily removes tag by following printed instructions

Small, sharp pin will not damage garment

Smooth side allows for custom logo or any other desired message

KEY FEATURES:

- Assures the garment is in a new and unused condition when returned
- Easy, at home removal
- 1 Alarm
- Can be used to reinforce your store return policy
- Can be source-applied or applied in the store

SUGGESTED APPLICATIONS:

Dresses

Special occasion wear

Menswear

Lingerie

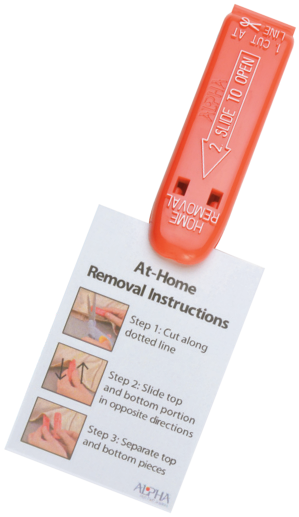
Coats

Furs

Swimwear

Online and catalog orders

Optional printed tag can be customized



1 CUT AT LINE
2 SLIDE TO OPEN
HOME REMOVAL
At-Home Removal Instructions
Step 1: Cut along dotted line
Step 2: Slide top and bottom portion in opposite directions
Step 3: Separate top and bottom pieces
ALPHA

The tag cannot be re-applied to garment without evidence of tampering

Strong visual deterrent

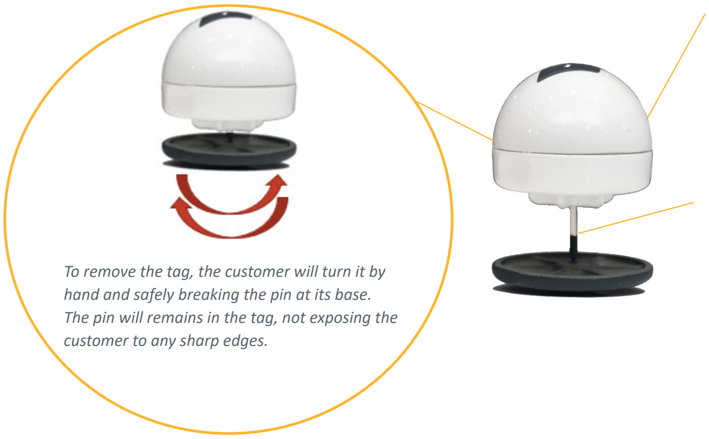
R-Turn Tag w/ Warning Label

Instruction video

Fight back against **wardrobing!** The new R-Turn Tag w/ Warning Label is very effective in preventing customers from purchasing, using and **returning merchandise for a full refund.** When you wear it, you own it!

The R-Turn Tag w/Warning Label offers a smart, simple and small aesthetic. **No tool is needed** and the customer is **never in contact with the pin.** This tag can be applied anywhere on the item.

Checkpoint R-Turn Tag w/Warning Label enables a vertical application. This **avoids snagging and marking** the fabric during application and removal.



R-Turn Tag, hidding the pin

Pin, never in contact with customer during removal

To remove the tag, the customer will turn it by hand and safely breaking the pin at its base. The pin will remains in the tag, not exposing the customer to any sharp edges.

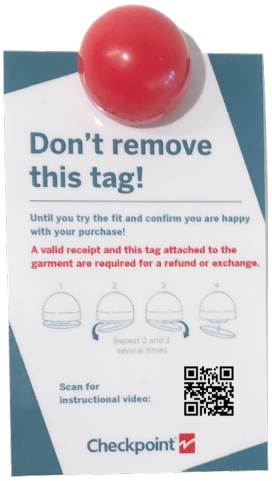
Possibility to personalise the R-Turn Tag

KEY FEATURES:

- Easy At Home removal
- No EAS
- Assures a new and unused garment when returned
- Can be used to reinforce your store return policy
- Can be source-applied or applied in the store
- Possibility to personalise the R-Turn Tag

SUGGESTED APPLICATIONS:

Dresses
Special occasion wear
Menswear
Lingerie
Swimwear
Online and catalog orders



Don't remove this tag!
Until you try the fit and confirm you are happy with your purchase!
A valid receipt and this tag attached to the garment are required for a refund or exchange.

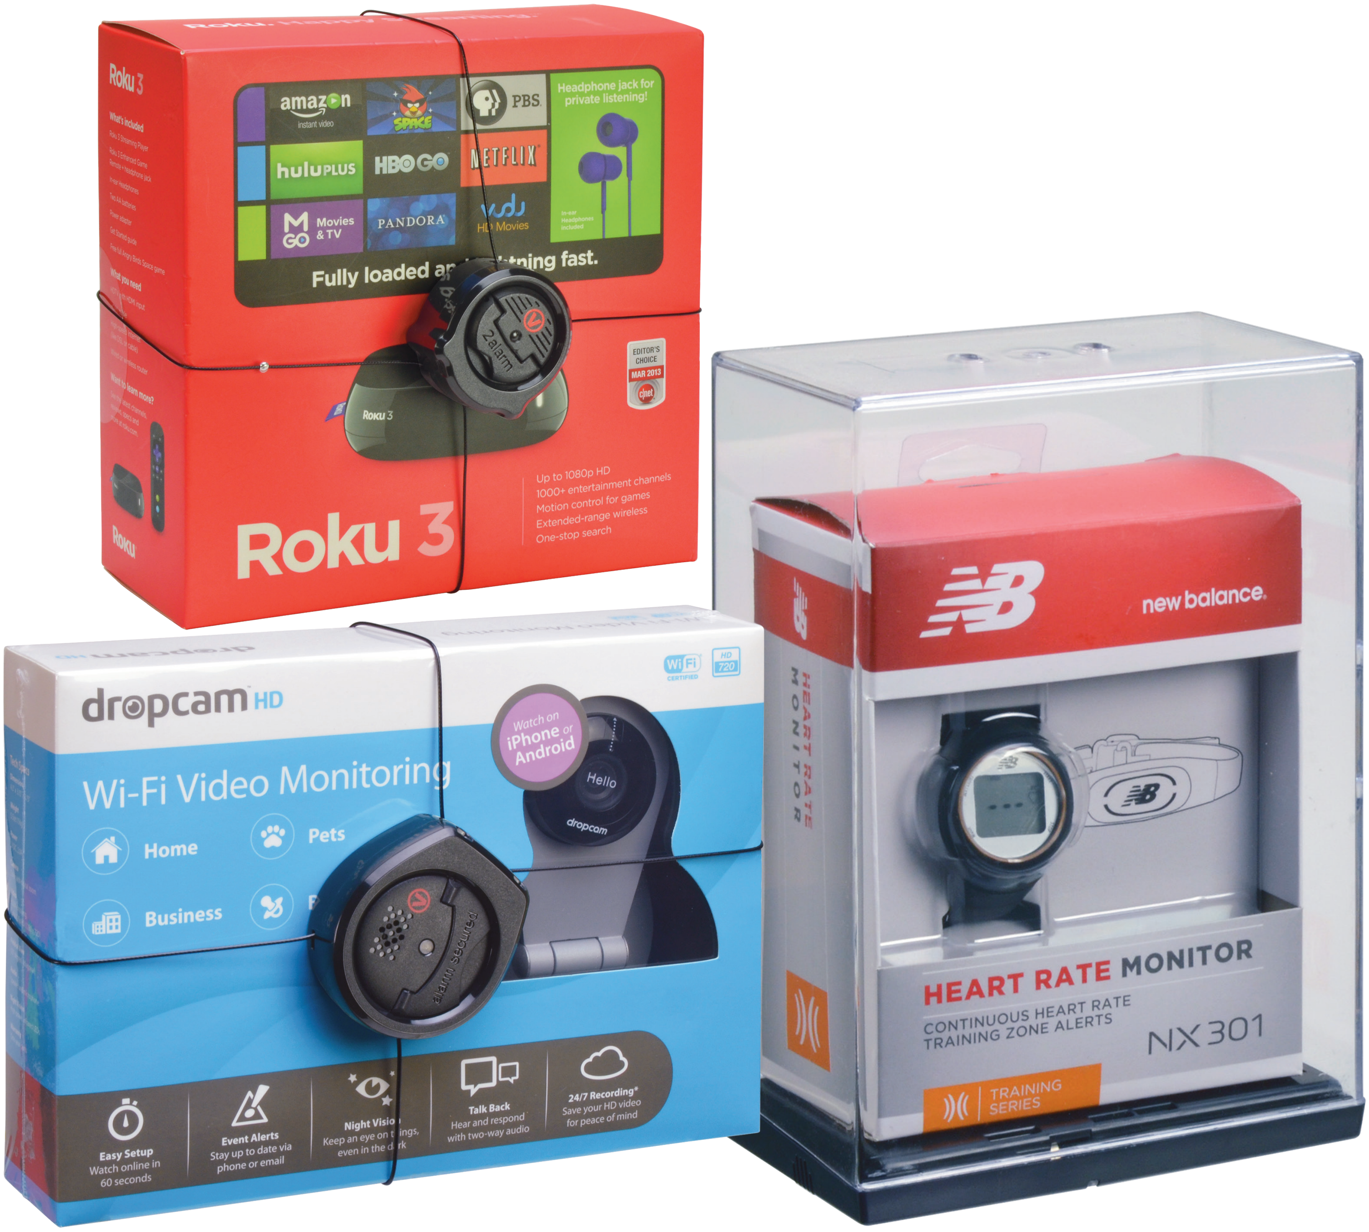
S3vx

Checkpoint has designed the next level of security solutions to combat the use of illegal detachers.



# S3vx

A Stronger Detacher. A unique code.

Your Key To A Security Advantage.

The use of counterfeit, stolen or illegally acquired detachers is on the rise and they are being used to defeat “on-product” solutions leaving some retailers with the desire to have even stronger security. Checkpoint has designed a solution to the problem, giving you two innovative ways to enhance your security and take it to a whole new level with **S3x and S3vx.**

With the new S3vx Detacher, the “x” stands for an extra-strength magnet that gives it greater mechanical integrity. They also have the ability to be programmed with a unique, store-specific code. That’s where the “v” comes in – the advanced encryption technology means the S3vx Detacher sends the “verification” code to the S3vx device to disarm the alarm, during which time the device can then be opened with the extra-strength S3x magnet. If the device is opened without first being disarmed by the verification code, the device will alarm for five minutes or until it receives a valid verification code.

BENEFITS OF S3VX:

- S3vx devices will alarm unless disarmed and opened by the S3vx Detacher that has the same unique code.
- If stolen, the S3vx verification code will be erased automatically to prevent use anywhere else.
- In the case of a store closing or network breach, the S3vx Detachers and S3vx devices can be reprogrammed with a new code.
- Once programmed, the Detacher will retain the verification code unless the cord is cut or the detacher docking station is removed from the POS.
- A stolen S3vx Detacher used to open an S3vx device in another store will result in an alarm.

The S3vx Detacher is backwards compatible and able to open any current S3 solutions the retailer might have.

**Checkpoint has the most innovative range of detachers and security devices to alleviate your shrink problems and increase your profits.
To find out more about S3vx, please check our website.**

S3vx Keys

S3vx Keys and S3vx security devices are programmed with a unique, store-specific code. Once programmed, attempts to open S3vx devices with anything other than Checkpoint's proprietary S3vx Key will result in an alarm. S3vx devices are programmed to "erase" the store code if the S3vx Key is stolen.

S3vx Keys open the following devices:

- S3vx AVM606 Keeper
- S3vx AVM806 Keeper
- S3vx AVM966 Keeper
- S3vx 2 Alarm Attack Spider Wrap®
- S3vx 2 Alarm Mini Spider Wrap
- S3vx 2 Alarm Mini CableLok®

KEY FEATURES:

- Key is backwards compatible and will open existing S3 devices
- Can be locked when not in use
- Serial number provides added security

G6 RFID Hard Tag

Checkpoint's G6 RFID Hard Tag has an anti-body shadowing design that ensures full functionality, with 360° detection. Applied at source, it helps make supply chain data more precise. It can be used alone or in combination with either RF or AM- technology pins to meet your security needs—including "RFID as EAS."

KEY FEATURES:

- Anti-body shadowing design ensures full functionality
- 1 Alarm
- Use alone or in combination with RF- or AM technology pins; supports "RFID as EAS" for wide store door configurations
- Enhances accuracy and visibility throughout the supply chain (when applied at source)
- Works easily with magnetic detacher
- Difficult to defeat with common tools

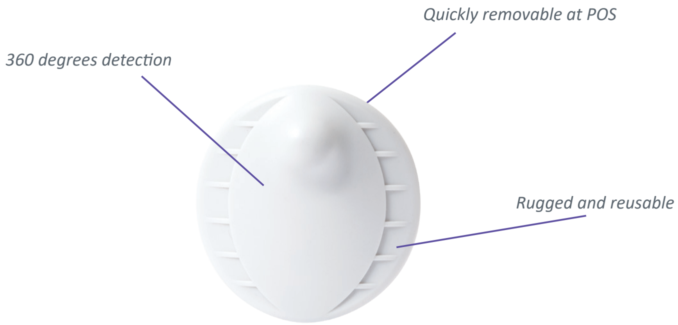
SUGGESTED APPLICATIONS:

Apparel merchandise

SUGGESTED DETACHERS BY LOCKING MECHANISM:

Standard Lock (9414839, 10111227, 9238054). More info in keys section of the catalogue.

Super Lock (10144026, 10144027, 10104110, 10106181). More info in keys section of the catalogue.



Easy to open and close thanks to special detatching tool

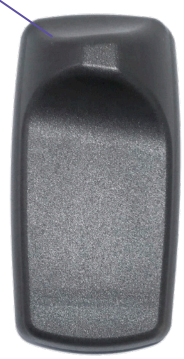
# RFID

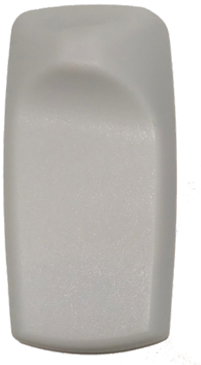
Gen7 Dual Technology HT

Checkpoint's Gen7 Dual Technology RF/RFID HT provides an anti-theft solution and technology for inventory control of high-risk items. The Gen7 HardTag incorporates both EAS and RFID technologies. The RFID read range performance is suitable for both inventory and "RFID as EAS" applications. Applied at source, it will help make supply chain data more precise. The Gen7 Hard Tag is quickly and easily removed at POS for re-use.

Quickly and easily removed at POS for re-use



Gen7 Dual Technology RF/RFID HT



Gen7 Dual Technology AM/RFID HT

KEY FEATURES:

- High performance and reliability for high-risk apparel tagging
- Supports "RFID as EAS" for wide store door configurations
- 1 Alarm
- Enhances accuracy and visibility throughout the supply chain (when applied @Source)
- Soft curves defining locking Surface to detach better
- Difficult to defeat with common tools; retains its effectiveness even after repeated use

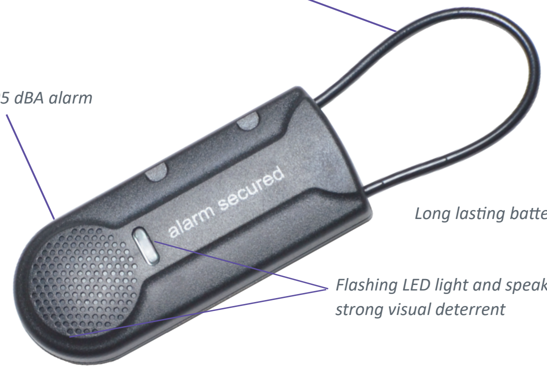
2 Alarm® CableLok® RFID

Specifically designed to help you lose less and sell more, CableLoks protect a wide range of high-theft hard and soft goods merchandise. CableLoks are reusable and completely portable, permitting open merchandising and free movement in the store which, in turn, minimizes sales assistance.

KEY FEATURES:

- 7x7 strand aircraft grade coaxial cable
- 95 dBA alarm
- 2 alarm
- Flashing LED light
- Isolated sound chamber
- Easy to apply and remove
- Tough, secure and reusable
- Battery powered RFID chip provides a stronger transmission and helps prevent body shadowing



2 lanyard sizes (6” and 48”)

Amplified 95 dBA alarm

Long lasting battery

Flashing LED light and speaker provide strong visual deterrent

SUGGESTED APPLICATIONS:

6” CableLok: Luxury handbags, backpacks, luggage, camera bags, briefcases, sports equipment, power tools, grills

48” CableLok: Coats, furs, dresses,
men’s and women’s suits

SUGGESTED DETACHERS BY LOCKING MECHANISM:

S3 Lock: S3 Handkeys (10006401, 10006402, 10006398, 10006399, 10006347, 9286317, 10006400, 9409394). More info in keys section of the catalogue.

Can protect every type of coats thanks to the 48’’ version

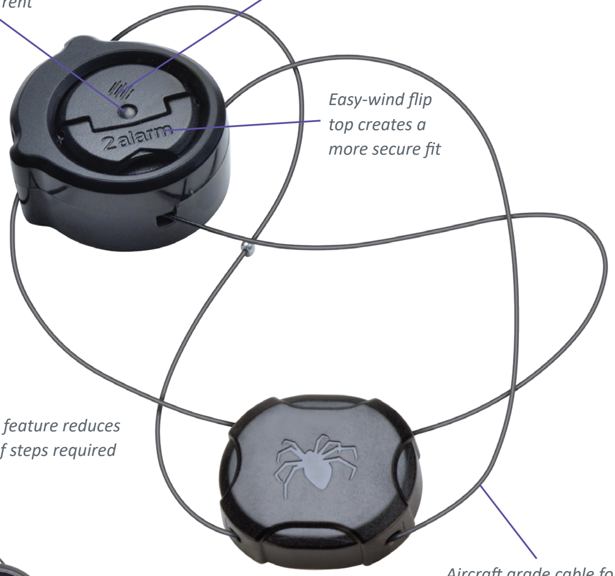
2 Alarm Mini Spider Wrap®

The Mini Spider's unique size maximizes display opportunities for small packaged goods. The strong internal clutch mechanism enables the cables to be cinched tightly, providing increased security for your smaller boxed merchandise.

KEY FEATURES:

- Reusable, one-piece design
- Aircraft grade cable
- 95 dBA alarm
- 2 alarm
- Easy to apply and remove
- S3vx version provides added security with verification code
- Available with RFID inlay to provide a stronger transmission and help prevent body shadowing



Flashing LED creates a visual deterrent

Protected speaker minimizes defeat and produces up to a 95 dBA alarm

Easy-wind flip top creates a more secure fit

Auto-lock feature reduces number of steps required to apply

Aircraft grade cable for tough protection

SUGGESTED APPLICATIONS:

Housewares
Coffee makers
Portable DVD players
iPods
Digital photo frames
Mobile phones
Video game hardware
Software
Zip drives
Video games
Ink and toner cartridges

Crystal Guard RF/RFID

The clear design of the Crystal Guard RF/RFID provides attractive benefit denial security for your merchandise. Two sizes offer a wide range of coverage for a highly secure, perfect fit.

KEY FEATURES:

- Cap offers a strong visual deterrent and benefit denial protection
- Pain points under the base deter improper prying
- Clear top provides a clean product display and easy viewing of product labels
- 1 Alarm
- Dual Technology RF/RFID
- Comes in small and large sizes
- Intuitive slider for locking and unlocking
- "Alarm" print offers visual deterrent

SUGGESTED APPLICATIONS:

Wine bottles

Spirits

RFID Mini NeedleLok™ Tag

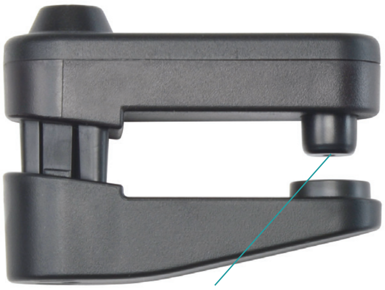
Instruction video

The Mini NeedleLok Tag is now available in RFID, RFID/RF, and RFID/AM technology, allowing retailers the flexibility to use RFID as EAS or enhance their current EAS systems when implementing RFID into their stores.

Optional customizable QR codes

KEY FEATURES:

- RFID for both EAS & inventory management
- Available in RFID only, RFID/AM, RFID/RF
- Encodable RFID inlay
- Optional customizable QR code
- Optional custom color
- Single-piece tag with an integrated needle
- Designed to reduce damage to garments vs. traditional pins
- Quick and easy to apply or remove
- S3, Standard, Super, or Hyper Lock clutch strengths
- Unlocks with corresponding S3 HandKey, Multi-Detacher, Super S3 Key, or Hyper Detacher



Retractile button covers and protects needle

SUGGESTED APPLICATIONS:

Apparel

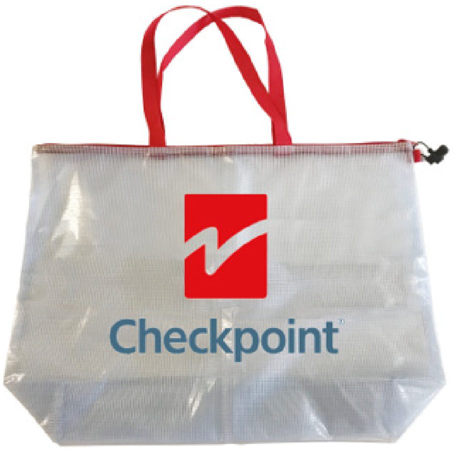
Shopping Security Bag

The Shopping Security Bag is a personalised bag closed by a banded hard tag. It enables 2 main applications: security bag or shopping bag.

This solution can be used as a security bag at the entrance of the store to fit personal belongings (shopping bags from other stores, etc.) and as a shopping bag to fit products from the store where no shopping baskets are available. The Shopping Security Bag is available in 2 different format (vertical and horizontal).



Improved brand awareness at entrance and POS

KEY FEATURES:

- Personalised security bag
- Personalised shopping bag
- Improves brand awareness
- Versatility
- Standard Locking system

SUGGESTED APPLICATIONS:

Security Bag

Shopping Bag
