SURFACE DESIGN PORTFOLIO

A LITTLE BIT ABOUT

## Hannah Colleen

I am Hannah Colleen, a graphic and surface designer, wife, and dog mom. I'm a born and raised East Texan still living in the Pineywoods. I have a bachelors in graphic and web design from the Art Institute of Dallas, and I've worked as a graphic and surface designer since 2019. I love bright colors, patterns, creating visual stories, the arts in all mediums, interior design, and designing art that represents who I am. Over the years, I have worked for marketing agencies, a magazine, a national home decor company, a publication house, and I've started my own business. Through all of my experiences, I am most proud of my surface design collections, selling my patterns on products, and connecting with people who enjoy my work. My goal as a designer is to not only create the art I love, but also create art that brings joy to other people.

# GARDEN PARTY

When I think of a garden party, I think of a long table in the middle of a garden with a beautiful tablescape full of flower arrangements, refreshments in pitchers, tea cups, saucers, tea kettles, fruit on platters, and cake stands with desserts. The guests are dressed in billowy dresses that are dainty and girly. Walks in the garden are full of color, butterflies, and a slight breeze. All the while, the sun is shining making it a beautiful day to be in nature. Through this collection I wanted to capture the beauty of flowers, the feeling of sunshine, a little bit of a perfect day's fantasy, and patterns that make you smile.

# Merry, Berry & Pine

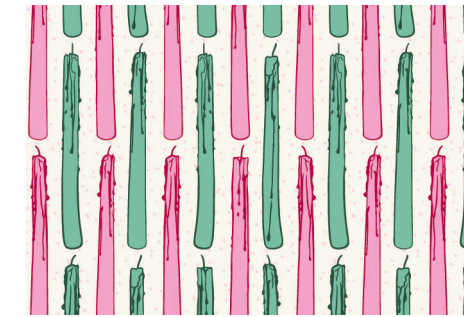

Merry, Berry & Pine is a Christmas collection inspired by some of my favorite Christmas items, memories, and traditions. From annual Christmas tree farms, to eating peppermint bark, to Christmas Eve candle light services, I hope you feel and see the joy the holiday season brings me.

# sweet comfort

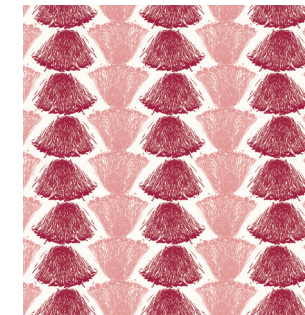

Sweet Comfort was inspired by my favorite show Gilmore Girls. Each pattern is my interpretation of symbols, elements, and character traits of the show, designed in my style and love for botanics. For several years now, Gilmore Girls has been my go to show when I'm feeling anxious, in need of something light hearted, comforting, or just simply joyful. As you look through both color palettes, my hope is for you to feel the bright and cheerful spirit of the characters' personalities in the first colorway and the comfort the show brings me in the second.
